So, you want to jump in and help Jimmy save his parents and his friends’ parents from the clutches of King Goobot? Well, you’ve come to the right place. Using the directional buttons or the left analog stick, walk Jimmy over to the level you want to play and enter the portal. Throughout each stage, Jimmy is required to find key items and prizes. Only then can he complete the level and move on to the next. Keep your eyes open for seemingly hard-to-reach areas and other secret hiding places. Only by searching every nook, cranny, crevice, and ledge will you find all the items you’re looking for. Also, keep in mind that some areas within a level will only be accessible after all the appropriate items have been found.

Note: You must finish the levels in order before you can move on.

RETROLAND
Jimmy starts his adventure in the Retroland Amusement Park. The objective here is to grab six prizes that Nick has challenged you to find. Guide Jimmy through the different areas of Retroland to locate the goods, and then report back to Nick once you’re through. Keep in mind that not all the areas in Retroland are immediately accessible. To complete a thorough search, Jimmy must first find Key Items that his friends need.

THEME PARKS
Within Retroland, Jimmy will need to visit four Theme Parks to find the hidden prizes: Mummy Area, Arabia, Crazy Mouth, and Volcano World. Each presents a unique challenge and requires a different strategy to complete.

THE MIDWAY
While searching through Retroland, Jimmy will come across this fun area. Here, he participates in a number of fun carnival-style games. Remember, you may find a couple of prizes and learn some valuable information, so don’t goof off too much. Special Attractions: Batting Game, Rocket Jump, Arcade Game, Dunking Booth, Fortune Teller, and Photo Booth.

JIMMY’S HOUSE
Oh, no! Jimmy and his friends just discovered King Goobot’s minions have stolen their parents. In order to attempt a rescue, the gang must assemble a rocket ship, which they can do only by finding parts laying around Jimmy’s house. Guide Jimmy through his underground lab and inside his house to find the necessary items. But beware: Giant Ants and Yokians are everywhere!

ITEMS
Rocket Gear, Rocket Engine, Rocket Transmission

ASTEROID EXTERIOR
Jimmy and his friends found the necessary rocket parts and have jettisoned off the Earth and into space. Now, they have landed on an asteroid just outside of the Yokus atmosphere. However, the shock of arriving on the asteroid has caused quite a fright, and all of Jimmy’s friends have scattered out of fear. All except Nick, that is. Unfortunately, Nick is too cool and refuses to help. Looks like Jimmy has to save all his friends by himself, and then rally them so they can continue their rescue mission.

FRIENDS
Carl, Cindy, Rose, Nissa, Zachary

KEY ITEMS
Carl’s Eyeglasses

ASTEROID INTERIOR
Once Jimmy has gathered the gang together, he must now take on a most important objective: collect enough plutonium “fuel for the rocket ship” to leave the asteroid. Jimmy will have to navigate a wild, twisting, turning flume riding the Goddard Sled. It doesn’t get any easier at the bottom, as Jimmy will have to battle and defeat an army of Yokians as well as collect three cans of fuel. Plus, Jimmy has to save what’s her face, Cindy Vortex.

ITEMS
Fuel Cans

FRIEND
Cindy Vortex

YOLKUS PRIME
Now comes the real challenge. Jimmy and his pals have escaped the Asteroid and have now landed on Yokkus Prime. A genius’s work is never done. Jimmy must now go about rescuing all his friends’ parents while battling hordes of Yokians and King Goobot’s right hand guy Goblar. But wait! Jimmy also has to save his parents and defeat Poultra and King Goobot. Whew! No one said it would be easy.

FRIENDS’ PARENTS
Sam, Grace, Reggie, Carl’s Mom, Carl’s Dad, Cindy’s Mom

JIMMY’S PARENTS
Hugh and Judy Neutron
Throughout the adventure, Jimmy will be able to pick up and use certain items and inventions. Once you've acquired an invention, press the button to activate it. However, you can only use Jimmy's inventions for a short time before they disappear.

**BLUEBERRY PIE**
To replenish Jimmy's health, collect the pieces of pie you find in the level.

**NEUTRONS**
Collecting Neutrons is the key way to gain certain goodies. By collecting 10 Neutrons, you are awarded an extra life.

**SHRINK RAY**
This is a very effective invention that shrinks your enemies to the point of nonexistence. To use the Shrinking Ray, stand in front of your target and hold down the button.

**INFLATO RAY**
This invention produces the opposite effect of the Shrink Ray as it inflates your enemies to gigantic proportions until they explode. To use the Inflato Ray, stand in front of your target and hold down the button.

**JIMMY BAT**
When it's time to break a few Yokian shells, there isn't a more effective invention than this shiny one. To use the Jimmy Bat, stand in front of your target and press the button.

**GODDARD VEHICLES**
In addition to Jimmy's inventions, you'll also use many Goddard Vehicles in certain situations. Be on the lookout for the Goddard Pogo, the Goddard Sled and the Goddard Scooter. Boy, that robo dog sure is versatile!
Get to know Jimmy and some of his pals. While you’re at it, might as well read a bit about the goons you have to challenge. Knowledge is power.

**JIMMY**

Just your average, everyday pre-teen super genius. Jimmy built his own fully-functional (usually...) robotic dog for the science fair. More often than not, his experiments and inventions backfire, forcing him to scramble for a solution before his parents, teachers, or NASA find out what he’s up to. Even when disaster looms, Jimmy never gives up - he always figures it’ll just take one more little tweak for everything to work perfectly.

**GODDARD**

Goddard is the best friend a boy can have, considering he’s made of sprockets, circuits and widgets instead of fur, slobber, and fleas. He can transform into a variety of useful tools for Jimmy - he’s like a hi-tech, barking pocket knife! Goddard likes to eat cans for breakfast, and for some reason he still can’t resist chasing cats.

**CARL WHEEZER**

Carl’s a big teddy bear who will do anything for his best friend Jimmy including acting as a test subject for some of his experiments. Even though Carl’s allergic to just about everything and suffers many bumps and bruises, not to mention getting car sick by just looking at a parked car, he always comes out okay and glad for the ride.

**NICK DEAN**

Nick is Mr. Cool Guy, at least in his own mind, and always seems to have something cool to do, say, or wear. He likes to give “mature” advice on how to handle things to our guy Jimmy, but the jury is out on just how good most of his advice is.

**CINDY VORTEX**

Cindy used to be the smartest kid in class - that was until he moved across the street. Even though Cindy is at odds with Jimmy, usually arguing over who’s smarter, not to mention the whole Guy vs. Girl thing, one could say they have a mutual respect for each other.

**SHEEN**

Jimmy’s close friend, Sheen is totally obsessed with the Ultra Lord television series and is trying to collect all of its merchandise (Including every one of the many action figures!). He is so obsessed with Ultra Lord that he never stops talking about it - even when he sleeps! Sheen can relate any conversation to Ultra Lord in some way, shape or form - he actually longs to be Ultra Lord! The obsession aside, he’s full of optimism and always believes the impossible can happen.
THE CHARACTERS

OOBLAR
He’s King Goobot’s right-hand guy, that’s almost always found quoting laws from the Book of Yolk. Whatever the King needs, Ooblar probably got it for him five minutes ago. As loyal as he is though, Ooblar is extremely jittery and excitable, and often finishes the King’s sentences or somehow upstages him. If it weren’t for the fact Ooblar is the King’s brother-in-law, Ooblar would have been zapped by Goobot’s Doom Stick a long time ago.

KING GOOBOT
Supreme ruler of the Planet Yolkus, King Goobot governs a world inhabited by gooey egg people called Yokians. He is short-tempered, extremely evil, and NEVER wrong! King Goobot always has to win, or he’ll take his ball and go home. More likely than not, he’ll just incinerate the other players or something.

POULTRA
All hail Poultra, the Yokian’s all powerful and mighty chicken god. Once Poultra is hatched, he will be quite hungry - and nothing is more appetizing to him than human adults. Jimmy’s parents and his friends’ parents will do nicely. Beekaw!

YOKIANS
Green blobs of gunk, Yokians rely on hovering glass and metal pods for transportation. Yokians live on the Planet Yolkus and are ruled by none other than King Goobot.
